REQUIRED SAFETY CERTIFICATIONS FOR ALL US SOCCER AND FUTSAL OFFICIALS

- **Introduction to Safe and Healthy Playing Environments:** This course will also satisfy Minnesota's law regarding sports officials being trained to recognize concussions, therefore any official with an active US Soccer Referee or Futsal license will be in compliance with that law. This course is required regardless of age. This requirement eliminates the need for MN officials to upload a concussion certificate for certification.
- **NSIC Background Check:** Cost is \$30 every two years and is required of all officials aged 18 or older. The USSLC will track your check validity and require the \$30 payment and check submission whenever you register with an expired check. The check is valid for any US Soccer-affiliated competition in Minnesota. US Soccer will NOT accept background checks from other entities... you must keep the NSIC check current in your USSLC account.
- **SafeSport:** Required yearly for any official age 18 or older. Now conducted on the USSLC site. No additional charge. As the training is conducted through the USSLC, MN officials no longer need to upload any certificates.

These courses will be included in the assignments for all US Soccer certifications. Completion of the course on one certification will carry over to other certifications... for example, if you certify as a referee

and then certify as an assignor, Safety Certifications completed for your referee license will be carried over to the requirements for the assignor certification and not need to be repeated.

Upgrade to Regional Referee

Grassroots officials who have met the requirements to upgrade to Regional may petition the SRA to do so. These requirements are:

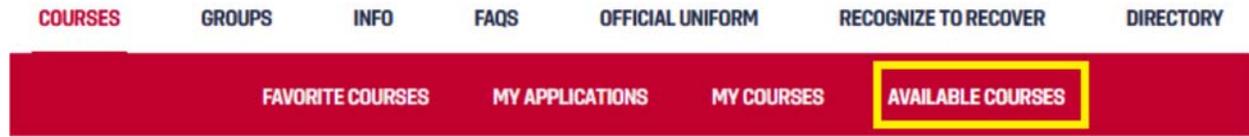

- 1) Minimum of 18 years old
- 2) Actively licensed as a US Soccer Grassroots Referee for all three years prior to the year of petition
- 3) 25 referee (center) assignments and 15 AR assignments in US Soccer-affiliated adult matches (youth games do NOT count)
- 4) Pass the US Soccer Regional Referee fitness test
- 5) Attend a Regional Upgrade in-person training session
- 6) Pass three assessments as a referee. Two of these assessments must be on US Soccer-affiliated adult matches with 45-minute halves... the third may be on a third adult match or a youth match with 45-minute halves. The assessments must be performed by three different Referee Coaches.

Candidates must submit their game count list to the SRA for review prior to being permitted to enter the process. If approved, candidates will have to pay an upgrade fee, then attend and pass a fitness test prior to December 31 of the year they start the process. If the fitness test is not passed, the upgrade fee is not refunded and assessments will not be performed. The training session will be held in the spring.

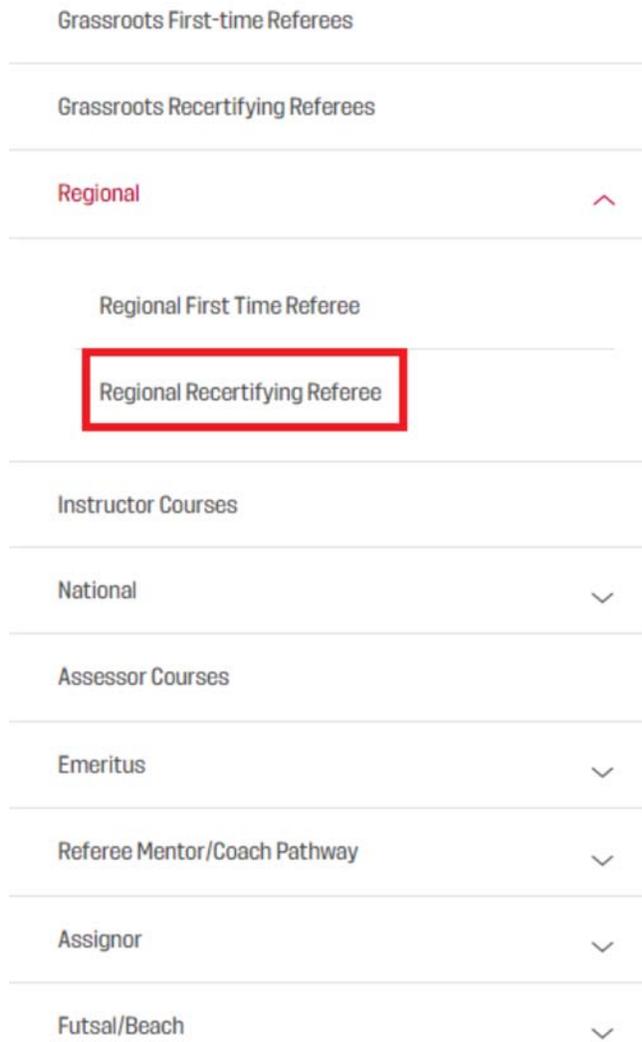

Please contact the SRA at sra@minnesotasrc.com prior to paying your Grassroots recertification fees if you intend to pursue upgrade.
